CUBAN STUDIES/ESTUDIOS CUBANOS

Volume 5 Number 1

January 1975

EDITOR'S NOTE

This is our first issue in journal format under the title, *Cuban Studies/Estudios Cubanos*. It is similar in content to previous winter issues because of the large accumulation of information since the December 1973 issue.

The July 1975 issue, Volume 5, Number 2, will contain two articles: "The Development and Application of Computer and Information Sciences in Cuba" by Ramón Barquín and "The Cuban Minority in the United States" by Lourdes Casal. In addition it will include the bibliography, research inventory, and book notes, providing this information to our readers twice a year instead of only once.

We gratefully acknowledge the assistance of Rolando A. Alum, II, Frank Calzón, Luis López, Louis A. Pérez, Jr., and Frank J. Shulman.

TABLE OF CONTENTS
